**STATEWIDE CURRENT SITUATION:** On March 18, Governor Greg Abbott announced that he [requested](#) a disaster declaration from the U.S. Small Business Administration (SBA) for South Texas communities impacted by the Welder Fire earlier this month. If approved, the SBA declaration will make federal assistance available and provide low-interest loans through its disaster programs to qualifying Texans whose homes and businesses sustained damage during the Welder Fire in San Patricio County and its contiguous counties.

On March 16, Governor Abbott [announced](#) that the Federal Emergency Management Agency (FEMA) approved the state's request for Fire Management Assistance Grants for the Rest Area Fire in Gray County and the Crabapple Fire in Gillespie County.

On March 13, Governor Abbott [announced](#) that he directed TDEM to activate additional state emergency response resources in anticipation of extremely critical wildfire danger expected across West Texas and ongoing elevated-to-critical fire weather conditions across most of the state into the weekend.

On March 7, Governor Abbott [announced](#) that he directed TDEM to request officials from the U.S. Small Business Administration (SBA) join state and local partners to conduct joint preliminary damage assessments in South Texas communities impacted by recent wildfires. These assessments will aid in determining whether Texas meets the threshold for additional federal disaster assistance.

On March 5, Governor Abbott [announced](#) that the Federal Emergency Management Agency (FEMA) approved the state's request for Fire Management Assistance Grants for the Welder Fire in San Patricio County and the Duke Fire in Bexar County.

On March 4, Governor Abbott [directed](#) the Texas Division of Emergency Management (TDEM) to elevate the readiness level of the Texas State Emergency Operations Center (SOC) to Level II (Escalated Response Conditions) as the state braced for extremely critical wildfire conditions and severe weather threats. The Governor also added 33 counties to the state's wildfire disaster declaration, which now totals 236 counties impacted by increased fire weather conditions.
