Hazardous Weather

Breezy Monday: Elevated Fire Weather

Updated:
Mon Nov 17, 2025 1:55 AM

Forecasted Max Wind Gusts (Timing: 10am-6pm)

Chances of Seeing Wind Gusts > 40 mph

Elevated Fire Weather Conditions

National Weather Service | Amarillo

Follow Us: @NWSAmarillo

The latest updates indicate an increased chance of wind gusts exceeding 40 mph this afternoon. Due to this higher probability and the expected dry conditions, elevated fire weather is becoming more likely. This is particularly concerning across the Southern Texas Panhandle, where fuels have already demonstrated an ability to ignite. Please use caution when doing outdoor activities that might result in a spark and report any fires to authorities.

Breezy & Mild Today

weather.gov/Lubbock
Updated: Mon Nov 17, 2025 4:04 AM

Monday

On the Caprock

Low to Mid 70s

WSW 15 to 30 mph

Sunny, Breezy

Off the Caprock

Low to Mid 80s

WSW 15 to 25 mph

Sunny, Breezy

NATIONAL WEATHER SERVICE LUBBOCK TX

Follow: @NWSLubbock

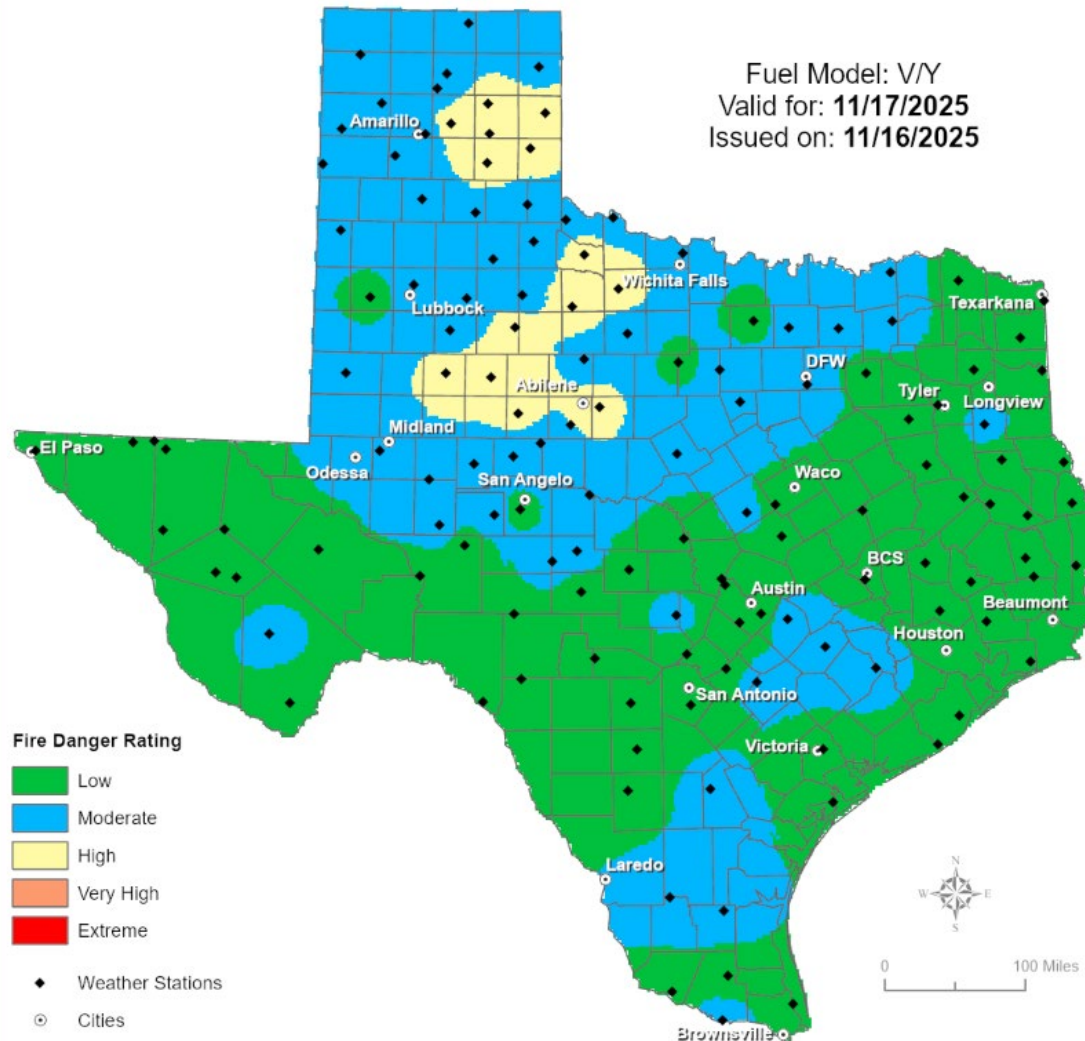

It'll be another mild day to start the week with highs in the 70s and 80s. West winds will also increase and become breezy, which will result in elevated fire danger this afternoon especially on the Caprock.
