5-Day Precipitation Forecast & River Flood Status

Note: Even though the image displays 5 days of forecasted rainfall, river forecasts only include 1-2 days of rainfall

Continuing to monitor for river rises across the region this week.

Canadian River at Amarillo will be in moderate flood through today and minor flood through Friday impacting mainly recreational areas.

Devil's River in SW TX has moved into moderate flood stage. Impacts to campgrounds.

Note: Numerical levels (e.g. level 1 of 4) will not be assigned to riverine flooding due to the varying levels of impacts across flood categories.
